2) Select one issue:

3) Decide which ethical frameworks are most relevant to this particular issue (*you will only include checked frameworks in your further analysis*):

	Deontology
	Utilitarianism
	Justice
	Ethic of Care
	Liberty
	Virtue
	Land Ethic

4) Develop alternatives to resolve this issue:

(a) Maintain status quo

(b)

(c)

(d)

(e)

(f)

5) Analyze these alternatives: (only include checked frameworks from step 3) above)

Check relevant frameworks		(a)	(b)	(c)	(d)	(e)	(f)
	<u>Principles</u> : Does the alternative conform to fixed rules of conduct?						
	<u>Outcomes</u> : Does the alternative create more good than harm?						
	<u>Fairness</u> : Does the alternative lead to fair outcomes?						
	<u>Caring</u> : Does the alternative support caring relationships?						
	<u>Liberty</u> : Does the alternative promote personal choice?						
	<u>Character</u> : Does the alternative advance personal ideals?						
	<u>Sustainability</u> : Does the alternative respect the natural environment?						

6) Select the optimal alternative:

7) Is the optimal alternative financially viable? (if not, is the second-best financially viable? the third-best?)

Yes	No
-----	----

Is the optimal alternative politically viable? (if not, is the second-best politically viable? the third-best?)

Yes	No
-----	----

8) Develop a plan for implementation:
