

History of Modern Italy

Professor Rand Jimerson | 40 Hrs | Instruction in English

Spring 2013

SIENA, ITALY

Italy was not always Italy. Until the mid-nineteenth century, the Italian peninsula was divided into many separate city-states, duchies, republics, and kingdoms. This course explores the origins of modern Italy, beginning in the late 18th century, and the unification of Italian states into a modern nation. It then follows modern Italian history through two world wars, the era of Mussolini and fascism, and the post-war years.
